

MODULE STANDARDS

CENTEX MODULAR LAYOUT

STANDARDS COMMITTEE PROPOSAL

31 DECEMBER 2016

LAYOUT GOALS

- Show/public friendly
- Realistic operating sessions

MODULE CHARACTERISTICS

- Straightforward
- Reliable and sturdy
- Easy to set up
- Uniformity

MODULE (MODIFIED FREE-MO STANDARDS)

No back drop

48"

24"

Top of rail 50"
Flush with ends

Folding legs

MODULE

Alignment pins
and receivers

Top of rail 50"
Flush with ends
of module

MODULE OWNERSHIP

- Individually owned: 2'x4'
- Club owned: Corners, Wyes, Specialty

TRACK

TRACK

MAIN LINE

- Peco Code 83 Flex
- 3/16" Cork roadbed
- Peco *Insulfrog* hand throw
 - #8 preferred
 - #6 minimum

OFF MAIN LINE

- Peco or handlaid any code
- Peco *Insulfrog* or handlaid
 - #4 minimum

TRACK ARRANGEMENT

TRACK ARRANGEMENT GOALS

Shows

Operations

TRACK ARRANGEMENT GOALS

Shows

- Continuous running
- Trains close to audience
- Easy set up and tear down

Operations

- Realistic track arrangement
- Trains close to operator
- Set up at home to work on

TRACK ARRANGEMENT

Club side

Public side

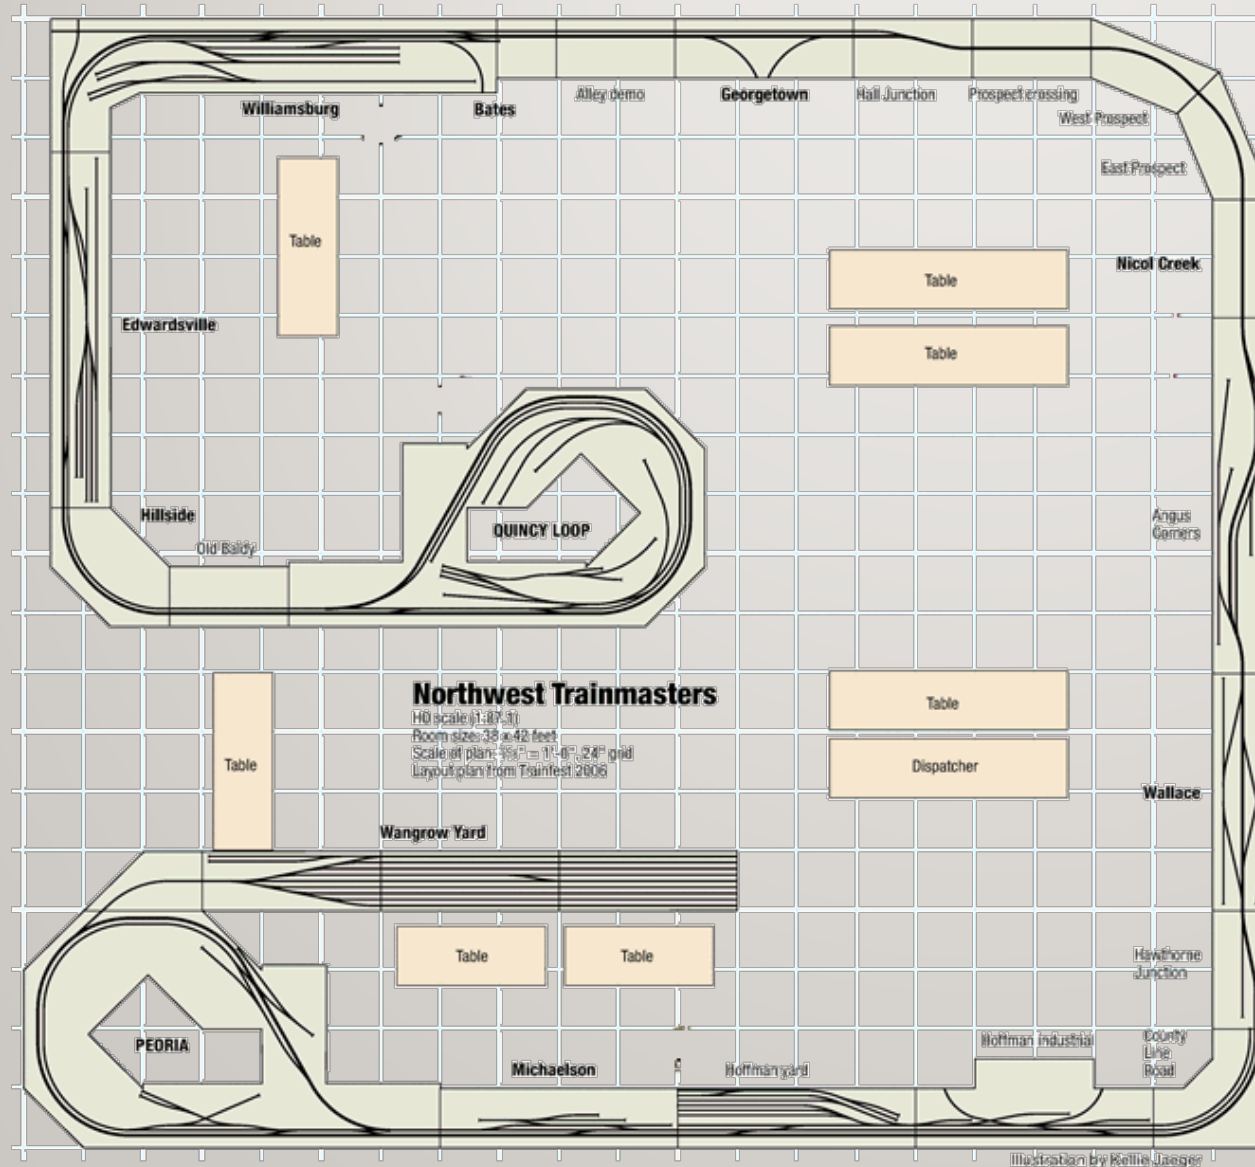

MAIN LINE

- Double track at outside edge close to public
- Operations from inside edge
- 48" preferred min radius
42" minimum radius
- Layout Design Committee to determine location of main line

ELECTRICAL

ELECTRICAL (MODIFIED T-TRAK STANDARDS)

- 12 Gauge track bus
- Separate bus each main line
- 12 Volt accessory bus
- 30 Amp PowerPole connectors each end
- No LocoNet bus

DCC SYSTEM

DCC SYSTEM

- No LocoNet bus
- Wireless throttles
- Ability to use smart phones and tablets

DCC SYSTEM???????

QUESTIONS RESPONSES 6

Club Standards Committee Survey

A quick survey to help us finish our design standard recommendations

Which DCC control system should we use for the club's modular layout?

☐ Digitrax

☐ EasyDCC

☐ Lenz

☐ NCE

☐ Battery power only

☐ Other...

Select along the scale the balance you would like to see between building a layout for public show continuous running and club-only operations.

	1	2	3	4	5	
Public show continuous running	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Club-only prototypical operations

- Digitrax
- EasyDCC
- Lenz
- NCE
- Battery power only

NEXT STEPS

- Vote on DCC
- Cost of modules
- Handoff to Layout Design Committee
- Other committees
